

UNITED ACTION CAN STOP RACIAL
HATRED AND VIOLENCE
:::::

Recent outrageous attacks on coloured immigrants in London and Nottingham have aroused wide-spread indignation. These activities are a menace both to the British people and the coloured immigrants. They can only be stopped by their mutual co-operation and solidarity action.

Let us be under no illusion. It's the Tory Government policy which makes it possible for the Fascists to preach and foment racial hatred, and to organise hooligan gangs to use violence against coloured people.

The Tory Government boasts there's no official colour bar, that all coloured immigrants are British citizens, and until now entitled to enter Britain without restriction.

BUT WHAT IS THE REAL POSITION ?

- ③ From the day they land they are faced with discrimination in their search for jobs and homes, and in many forms of social activity.
- ③ If lucky enough to get work it's in the lower-paid jobs; and if fortunate enough to find rooms or lodgings, only at fantastic high rents.
- ③ More than 17% of them are out of work — eight times higher than the British average.

All along the Tories have refused to take a single step to prevent this vicious discrimination. They have opposed every move to make the preaching of racial hatred a penal offence. Now they are planning to impose an official colour bar against them.

It's the Tory policy which is increasing unemployment, raising rents, and pushing up prices. It's this which imposes heavy burdens both on British and coloured people. It has created serious problems, which are being exploited by the Fascists, and has enabled them to organise gang violence against coloured people.
